

HOLD ON

Verse I

They always want to keep us together
They hold our hands in ties forever
Don't let to break our chains they endeavor
So never, no more
Feed us with lies, that's hard to discover
Show things in colors, and they know all about us
Still give the wounds we try to recover
We're brothers in war

Ref.

Hold on
Keep our head up, hold on
We've got to fight and be strong
Cause if we gon' stick together
They can't hold us down

Verse II

They gather round like crows round the prey
Act like invaders on their foray
See every move and hear all we say
But never, no more
We have our strenght to fight for tomorrow
With eyes no shallow overcome every sorrow
Won't give away our chance to be proud
We'll shout it out loud

Ref.

Hold on
Keep our head up, hold on
We've got to fight and be strong
Cause if we gon' stick together
They can't hold us down
